

Multi-channel flat jet nozzles for air Whisperblast[®], metallic versions Series 600.130.1Y

**Extremely
silent!**

Series 600.130.1Y

The multi-channel flat jet nozzles of the 600.130 series generate a planar, powerful air jet. The noise level and air consumption remain low even at higher air pressures. In the stainless steel version (316L SS), these nozzles can therefore be used in applications with the highest loads.
